There are many challenges facing Maui County – the need for affordable housing, renewable energy, public transportation and transportation planning, a revised real property tax system, and continued acquisition of park and open space.

We are so fortunate to have so many people in our communities who are willing to pitch in and come up with ideas and resources to meet the challenges that we face. Maui County's successes in the past can be attributed to the willingness of those in government and in the private sector to work collaboratively to protect and sustain our quality of life.

As a member of the Maui County Council for the past eight years, I have had the opportunity to participate in shaping Maui County's future through the legislative process. I hope to continue to serve and work with the community to ensure that future generations will enjoy the "specialness" of Maui County.
